

mujhe destination wedding template design krna hai uske according final PRD do bna ke

Neeche ek destination wedding ke liye final PRD diya hai jo tum seedha Lovable ko de sakte ho. Isme focus hai: location highlight, travel & stay info, multi-day itinerary, RSVP, high-animation feel – jaise modern destination wedding websites aur templates mein hota hai. [\[1\]](#) [\[2\]](#) [\[3\]](#) [\[4\]](#)

PRD – “Destination Dreams” Wedding Invitation Website

Is section ko as-is copy-paste karke Lovable ke prompt / PRD ke roop mein de sakte ho.

1. Product Summary

- **Product name:** “Destination Dreams – Wedding Invitation Website”
- **Type:** Mobile-first, single-page (ya very light multi-section) destination wedding website
- **Goal:**
 - Guests ko ek **high-animation, cinematic** destination wedding invitation experience dena.
 - Ek hi jagah par: love story, destination highlight, travel & stay details, multi-day schedule, things to do, countdown, RSVP & contact.
- **Use case:** Link WhatsApp / SMS / email se share hoga, guests mobile par open karke directly sab info dekh sakte hain, RSVP fill kar sakte hain, travel plan bana sakte hain – jaise modern destination wedding website templates provide karte hain. [\[1\]](#) [\[2\]](#) [\[5\]](#)

2. Target Users & Devices

- **Users:**
 - India + overseas guests jo destination par travel karenge (friends, family, extended relatives).
- **Devices:**
 - Mobile-first design (Android/iOS phones), responsive for tablets & desktops.
- **Special needs:**
 - Elders ke liye readable fonts, simple navigation.
 - Guests jo city/country first time visit kar rahe hain – unke liye clear travel info.

3. UX Flow (High-Level)

1. Guest link open karta hai → animated Hero section with destination visual + couple names + date.
2. Scroll down → Welcome & Story, then Destination highlight section (location intro).
3. Niche → Travel & Stay section with airport info, hotel options, group code etc.
4. Fir → Events Itinerary (multi-day schedule for 2–4 days).
5. Fir → Things to Do / Local Experiences (sightseeing suggestions).
6. Fir → Gallery / Moodboard (optional) + Countdown to wedding.
7. End par → RSVP + Contact with simple form and contact numbers / WhatsApp links.
8. Top navigation se user kisibhi section par directly jump kar sakta hai (smooth scroll).

4. Visual Style & Animation

- Theme:
 - Destination ke hisaab se (beach, palace, hill station, international city).
 - Example palettes:
 - Beach: teal, sand, white, coral.
 - Palace/Royal: maroon, gold, cream.
- Imagery:
 - Real destination photos ya high-quality illustration as hero background – jaisa destination wedding templates mein hota hai. [\[2\]](#) [\[4\]](#) [\[6\]](#)
- Animation style:
 - Smooth parallax scroll for background.
 - Section entry animations (fade-in, slide-up).
 - Micro-interactions on buttons, cards, timeline.
- Performance:
 - Use optimized images & lightweight animations; mobile par lag nahi hona chahiye.

5. Personalization & Configurability

- Guest name personalization (optional):
 - URL param ?guest=Rahul%20Sharma se naam read karke welcome message mein show kare.
- Configurable fields (JSON/config ke through):
 - Couple names, dates, destination city/country, venue, hotel details, events list, local experiences, countdown date/time, contact numbers, WhatsApp links, Google Maps

links.

- Reusability:
 - Same template future destination weddings ke liye reuse kiya ja sake sirf config change karke.

6. Page Structure & Sections (Final Layout)

Order (scrolling):

1. Hero section
2. Welcome & Couple Story
3. Destination Highlight
4. Travel & Stay
5. Events Itinerary
6. Things To Do (Local Experiences)
7. Gallery / Moodboard (optional but preferred)
8. Countdown
9. FAQ (Quick Questions) – optional
10. Contact & RSVP

Har section animated entry (fade/slide) ke saath ho, jaise modern wedding sites / builders recommend karte hain. [\[2\]](#) [\[7\]](#) [\[4\]](#)

7. Detailed Section Requirements

7.1 Hero Section (Top Fold)

- Content:
 - Couple names (A + B).
 - Tagline: “Join us in [Destination]” / “Pack your bags for our destination wedding”.
 - Main date (or date range).
 - Short line: “Scroll to plan your trip”.
- Visuals:
 - Full-screen background (image/video) of destination – beach, palace, skyline, etc.
- Animation:
 - Slow parallax movement of background.
 - Names fade-in / type-on effect.
 - “Scroll Down” indicator with subtle bounce.

7.2 Welcome & Couple Story

- **Content:**
 - Warm welcome message addressed to guest.
 - Short 3–4 line story (how they met / why this destination).
- **Layout:**
 - Split layout: text + small couple photo or illustration.
- **Animation:**
 - Text slide-up, photo soft zoom-in.

7.3 Destination Highlight Section

- **Goal:** Explain why this place, basic info.
- **Content:**
 - “Why [Destination Name]?” – 2–3 lines.
 - Key facts:
 - Country/State, best weather months, vibe (beachy, royal, mountains, etc.).
 - Map thumbnail + “Open in Google Maps” button.
- **Visuals:**
 - Illustration or photo collage of landmarks.
- **Animation:**
 - Cards fade-in in staggered fashion.

7.4 Travel & Stay Section

Inspired by destination wedding websites where travel & accommodation details clearly diya jata hai.^[1] ^[2] ^[3]

- **Sub-sections:**
 1. How to Reach
 - Nearest airport(s) with airport codes.
 - Train/bus info (if relevant).
 - Travel time from airport to venue/hotel.
 2. Accommodation Options
 - Main wedding hotel (with group code / booking link).
 - 1-2 alternate hotel options (budget/mid-range).
 - Check-in / check-out recommended dates.
 3. Transfers (optional)
 - Info on arranged shuttle / taxi recommendations.

- **Layout:**
 - Card-based layout; each card = airport / hotel / transfer.
- **Animation:**
 - Cards slide-in; hover/tap pe subtle scale-up.

7.5 Events Itinerary (Multi-Day Timeline)

Multi-day events ko clear timeline mein dikhana recommended pattern hai, especially destination weddings ke liye. [\[2\]](#) [\[8\]](#) [\[3\]](#)

- **Content:**
 - Day-wise timeline (Day 1, Day 2, Day 3...).
 - Each event ka:
 - Name (Welcome Dinner, Mehendi, Sangeet, Wedding, Reception, Pool Party, etc.).
 - Date, time, venue name.
 - Dress code / theme (e.g. “Tropical pastels”, “Royal Indian”, “All white”).
- **Layout:**
 - Vertical timeline on mobile, horizontal (stepper) on desktop.
- **Animation:**
 - Timeline nodes light up on scroll.
 - On tap, expand card with extra details.

7.6 Things To Do / Local Experiences

- **Goal:** Guests ko destination explore karne ke ideas dena.
- **Content:**
 - 3–6 recommendation cards: beaches, forts, cafes, markets, adventure activities, etc.
 - Har card: place name, 1-line description, approximate distance/time from hotel.
- **Layout:**
 - Scrollable cards carousel on mobile.
- **Animation:**
 - Smooth horizontal scroll, subtle hover/tap effect.

7.7 Gallery / Moodboard (Optional but Preferred)

- **Content:**
 - Pre-wedding shoot photos, destination reference images, colour palette, vibe.
- **Layout:**
 - Masonry grid or slider.

- **Animation:**
 - Light zoom on hover, fade-in on scroll.

7.8 Countdown Section

- **Content:**
 - “Counting down to [Main Ceremony Name]”.
 - Live countdown to specific date/time.
- **Behaviour:**
 - When 0 pe aaye to message change: “It’s wedding day!” etc.
- **Visuals:**
 - Numbers in big, bold style with minimal background.

7.9 FAQ / Quick Questions (Optional)

- **Content examples:**
 - “What should I pack?”
 - “Is visa required?” (for international destination).
 - “What is the weather like?”
 - “Can I bring kids?”
- **Layout:**
 - Accordion (expand/collapse).

7.10 Contact & RSVP Section

- **Contact block:**
 - 2–3 key contacts (Bride side, Groom side, Travel coordinator).
 - Name, relation, phone, WhatsApp link.
- **RSVP Form:**
 - Fields:
 - Guest Name (pre-filled if URL param provided).
 - Email / Phone.
 - Number of guests.
 - Status: “Will attend / Not sure / Cannot attend”.
 - Travel info (optional): “Need help with booking?” (Yes/No).
 - Message box.
 - Behaviour:
 - Submit → data store in simple backend table / default DB.

- Success message: “Thank you! We can’t wait to see you in [Destination].”
- Buttons:
 - “Call”, “WhatsApp”, “Open Maps” with clear icons.

8. Navigation & IA

- Top navigation bar (sticky):
 - Logo / couple initials.
 - Links: Home, Story, Destination, Travel & Stay, Itinerary, Things To Do, RSVP.
 - Smooth scroll anchor navigation like typical wedding website templates.^{[2] [7] [4]}
- Mobile nav:
 - Hamburger menu opening full-screen or side-panel with same links.
- Utility:
 - Scroll-to-top button after some scroll distance.

9. Technical & Performance Requirements

- Stack:
 - Modern responsive web app (Lovable default – React/Next or similar acceptable).
- Performance:
 - Optimized images (WebP/JPEG), lazy loading where needed.
 - Animations GPU-friendly, no heavy blocking scripts.
- SEO / Share:
 - Social share image (Open Graph) with couple names + destination.
 - Meta title/description fields configurable.

10. Admin / Config (Phase-1 Level)

- Content can be edited in a central config file or basic CMS-like UI (if Lovable easily supports).
- No complex login system required in v1 – access is via private link.
- RSVP responses can be viewed via basic admin view or simple export (CSV) later.

11. Out of Scope for V1

- Full multi-language toggle (English + multiple languages) – optional future.
- Online payment, gift registry, or booking engine.
- Deep integration with airline / hotel APIs.

Agar tum chaho to main is PRD ka short compressed prompt version bhi bana sakta hoon jo Lovable ke chat mein ek hi paragraph mein use ho, ya specific section ke liye wording tweak kar sakta hoon (e.g. beach vs palace destination).
